

SHIELD RADAR SPEED SIGN

Shield Radar Speed Sign: Extreme Portability and Durability

The Shield family of portable radar speed signs is ideal for resolving speeding complaints and running quick traffic studies. Installs and deploys in minutes.

LIGHTWEIGHT

Built for ease of use, it's the lightest, most portable sign available anywhere, and it still meets the MUTCD minimum 12-inch digit size.

SIMPLE, UNIVERSAL MOUNTING

Permanent or portable, one-person install in under a minute to U-channel, any shaped pole, hitch mount or trailer using our integrated mounting system.

Shield 12

AMAZING BATTERY LIFE

Achieve up to several weeks of run time. A dedicated compartment allows all-weather battery replacement.

Shield 15

DURABLE CONSTRUCTION

The welded aluminum enclosure concealed mounting hardware, shatterproof Lexan and graffiti-resistant power coating make the Shield super tough.

Product Specs

SHIELD 12

Digit Size:
12" (MUTCD min.)
Dimensions:
13.5" H x 15.5" W x 2.6" D
Weight:
12 lbs. (including mount)

SHIELD 15

Digit Size:
15" (3 metric digits)
Dimensions:
17" H x 24" W x 2.6 W
Weight:
18 lbs. (including mount)

COMMON HARDWARE OPTIONS

Datalogging, Bluetooth, Violator Alert, Pictures and Metric.

Cloud-Based Reporting and Accessibility

Access real-time traffic data, generate ready-made speed and volume reports and share with your constituents from any Internet-ready device. Identify hot spots and prioritize enforcement. No more traffic data file management!

MAXIMIZE RESOURCES AND EFFECTIVENESS WITH REAL-TIME DATA AND REMOTE SIGN MANAGEMENT.

USE YOUR WEB-ENABLED SHIELD RADAR SPEED SIGN TO:

- Increase driver speed awareness
- Resolve speed complaints
- Augment officers in school zones
- Conduct quick stealth traffic studies
- Prioritize enforcement locations
- Make work zones safer
- Strengthen community relations
- Gather data to secure a grant
- Spot trends and hot spots
- Demonstrate the results of your traffic safety program

All Your Traffic Safety Program Data In One Place

ATS TrafficCloud is our secure, web-based ecosystem for managing all your traffic safety data and equipment.

View dashboards and reports of all collected data. Make more insightful decisions based on data analytics from all your program components. Save time by managing the status of connected devices and dynamic messaging all from one central location. TrafficCloud functionality includes:

EQUIPMENT MANAGEMENT

Stop wasting time driving to equipment to update and monitor it.

- Check status and change settings from any Internet-connected device
- Send single message to multiple signs at once
- Respond immediately to changing situations

REPORTING

Save time collecting, organizing, compiling and distributing information.

- Automated, daily uploads of new data into a centralized, SAS70-certified environment
- Identify trends to allocate resources and be proactive
- Schedule reports for regular delivery to your inbox

IMAGE MANAGEMENT

Achieve greater awareness with alarms or by requesting generated images.

- Capture images based on speeds, tampering, time intervals or upon request*
- Review, edit, print and act on useful images

*Images can be used to identify vehicle make and color but are not ALPR quality.

ALERTS

Specify when and whom to notify upon occurrence of certain conditions.

- Receive email or text as events happen
- Be aware of low batteries, high speeds, tampering, congestion and more

ENFORCEMENT

Automate the collection of Lidar captures.

- Ensure data accuracy
- Minimize data collection time

MAPPING

Manage your entire program through an intuitive visual interface.

- Interactive map provides a window to all system information

PREMIERCARE

Get a perpetual warranty and remote diagnostics with your subscription.

- 50% discount on accidental damage
- Real-time remote diagnostic monitoring
